

Problem Solving (A3) Report

1. Identify a Problem	PLAN
<ul style="list-style-type: none">• People have too many gaming accounts to manage and which becomes overwhelming• People can't keep track of which friends are playing on different platforms without having to login into the respective platform• Same as above, people can't keep track on their owned games or in-game achievements since they are numerous across their owned platforms	
2. Set the Target	PLAN
<ul style="list-style-type: none">• The target audience is the gaming community• The target to be reached is gaming organization which makes gaming more organized for multiplatform gamers	
3. Analyze the Causes	PLAN
<ul style="list-style-type: none">• There are many platforms to choose from and thousands of games available for the same• There are millions of people in the world which play games so it is easy to make friends through them which could later leave with an extensive list of friends on different platforms• Same as above, so many games imply a lot of achievements which is a bit cumbersome to keep track of for the dedicated gamer

4. Propose & Implement Countermeasures	PLAN/DO
<ul style="list-style-type: none">• Are you tired of having almost a hundred account for gaming? Epic, Nintendo, Ubisoft, PSN, Xbox Live, Stadia, Microsoft, mobile, etc. This app could help you manage each one of those and have them in one single place. The first time you use the app you would have to register each account which could be tiresome at first BUT after that, if you want to verify your information pertaining to one type of account, just open the app and look for that account, modify it and it would update the official account. Another option available is the friend list. Are you tired of not knowing whos gaming on which platform? The app could also show all of your friends on each platform in one single friends list and show who is online, on which platform and playing which game. That way you are always ready to game with your friends no matter the platform. You want to brag about your achievements to your friends? Just look for your Achievements tab, choose the game and brag all about. The app record in game achievements just like the platform alone would, you can now brag anywhere anytime. Forgot what games you own for some reason? Just open the app and select the game library tab and there you go, a list of games you own and/or have installed divided by platform so you never forget what gaming skills you have under your sleeve.
